Imprecation the Political Game!!

لعنة اللعبة السياسة !!

Let me ... & Excuse me

Let me .. a political game now Become more curse and no foolishness than ever before .. It became playing now more greed for blood and that was at the expense of their people before they are to their advantage.. Where politics now than ever before .. In the past, the political game that was characterized by very savvy and malice but it was the same honor policy .. Morality and political ethics were in order of play to follow all of its assets .. End that policy all the interests of its people without being detrimental to the interests of others only in the narrowest borders if necessary .. It was entered in the field of the political game is worthy and stints assets .. But now the political playing field has become transformed into volcanoes of blood .. They are not in the interest of the people as they are for the benefit of a particular group or category .. And not in a particular state, but has played in the same filth in all countries of the world for the benefit of one particular category.. Strangely enough, it has become of playing this game is not the owner of political experience, but became majority politicians .. The prisoner became a politician .. The thief became a politician .. The killer became a politician .. Thus policy has become not understand politics something .. The prevailing policy is now globally and regionally managed on a table and one sits few and moving pieces just as they want for their interest .. Or more precisely, in the interest of this group, which became controls everything in all countries of the world and is driven to his advantage, whether economically, socially or culturally, politically or religiously and even athletes become interference in their dirty game .. But the question now is will continue to be the case so? Or that ignites the fuse burned in the end .. That what the world is going now is only a set of ticking bombs, which when volcanoes explode will set the wars all over the world, without exception .. And in the interest of ... Everyone knows who they are stakeholders in what is happening .. Not only the World Zionist Organization .. Let history proves this.. And Excuse me ....
