THERE ARE VARIOUS TYPES OF QUAKES

which shake us in addition to when the Earth protests, gets angry or just stretches its huge back. We are shaken by a lot of things in the city, from traffic to crowds and queues, from new measures and media fears, we are shaken by poverty, lack of money, unemployment, homelessness, we are shaken by bad news, and we are shaken by too much love...

Here is how cartoonists from all over the world experienced all these earthquakes. Obviously, these topics are close to us, we are all people equally powerless in the face of great disasters.

So **Dora Axinte** sees the earthquake through the eyes of a helpless sailor, who is spilling beer, the stripe on his sailor's shirt measures the earthquake, but he objectively can't do anything... Just to testify...

Damir Novak deals with those gullible people who believe in the vaccine and will do everything to get it...

The tandem of Horia Crisan and Bogdan Petry teaches us the eternal one: *You can't take money to the grave.* How much greed makes sense?

Ning Bin puts a dove of peace in front of the gun trigger. Nice drawing and noble idea! How many such pigeons do we need to make the world a better place!

Handren Khoshnaw explains to us why the media don't talk about anything but *Covid*, all three strains already fill his brain, unable to say anything meaningful...

Ha, ha! There's more to see. Basically, we fully know that caricature isn't there just to make us laugh, even though it's an extra bingo for her! She is here to mirror the world, our depravity, our illnesses and our infirmities, but also our hopes, that everything that oppresses, shakes and kills us can still change...

At least for a while, at least in a caricature!

Branka Hlevnjak

POSTOJE RAZNE VRSTE POTRESA

koje nas potresaju, pored onog kad se Zemlja nešto buni, ljuti ili samo proteže svoja golema leđa. Potresa nas puno toga u gradu, od prometa do gužvi i redova, od novih mjera i medijskih strašenja, potresa nas neimaština, besparica, besposlica, beskućnica, potresaju nas loše vijesti, a tresemo se i od prevelike ljubavi...

Evo kako su sve te potrese doživjeli karikaturisti iz cijelog svijeta. Očito su nam teme bliske, svi smo mi ljudi jednako nemoćni pred velikim katastrofama.

Tako **Doru Axinte** vidi potres očima nemoćnog mornara, kojem se proljeva piva, pruga mu na mornarskoj majci mjeri zemljotres, ali on objektivno ne može ništa... Tek svjedočiti...

Damir Novak bavi se onima lakovjernima koji vjeruju u cjepivo i sve će učiniti da ga se domognu...

Horia Crisan i Bogdan Petry u tandemu nas uče onu vječnu: Novac u grob ne možeš ponijeti. Koliko pohlepa ima smisla?

Ning Bin stavlja golubicu mira pred okidač pištolja. Lijep crtež i plemenita ideja! Koliko nam takvih golubica treba da svijet bude bolji!

Handren Khoshnaw objašnjava nam zašto mediji o ničem drugom ne pričaju osim o kovidu, već sva tri soja pune mu mozak, nesposoban išta suvislo izgovoriti...

Ha,ha! Ima toga za vidjeti još. Uglavnom, dobro znamo da karikatura nije tu samo da nas nasmije, iako joj je to dodatni bingo! Ona je tu da nam zrcalno prikaže svijet, našu izopačenost, naše bolesti i naše nemoći, ali i naše nade, da se sve to što nas tišti, trese i ubija ipak može promijeniti...

Barem na kratko, barem karikaturalno!
